

Specialized Tax Incentives and Cost Savings

DCI Solutions' team of tax credit and industry specialists know where to find the savings and tax incentives even the most sophisticated companies and professionals are simply not aware of.

Experience Pays

The DCI team brings Big 4 experience and deep expertise across a broad range of cost centers and specialty tax credits that are largely unknown by the majority of financial professionals. Since 1999, the founders have provided savings to companies of all sizes, increasing bottom line profits at least \$1,000 per ee, and as much as 10% overall.

You May be Eligible for Tax Credits

Many federal and state tax credits are not fully understood and are beyond the domain expertise of most CPAs and CFOs. Although some credits can be recovered retroactively, many are time and knowledge sensitive and best optimized by specialists. DCI has the expertise to get you dollar-for-dollar credits just for doing what you're already doing!

Driving Costs Down and Profits Up

The DCI team of experts know where to find savings without requiring changes to your process or vendor selection.

What makes DCI unique is the breadth of cost centers we cover as well as the depth of savings we uncover. We know your team is negotiating well on your behalf and that your time to dedicate to outsiders is limited. Our team comes from deep in these industries, and uses cost-specific knowledge to identify the largest refunds and savings available to you. It's simple, we will find you more savings and get it to your bottom line quickly, with no risk to you.

DCI Solutions
Cost & Tax Credit Specialists

We'll find you money in any or all of these cost centers:

Would you like \$1,000/ee/year back to your bottom line?

DCI can assure you a minimum savings of \$1,000 per employee, per year, without cutting wages or head count. And DCI only requires a small amount of executive time to do this - approximately one day's worth of executive time spread over a few months. We never cut corners or risk quality to save you money. In fact, you might see employee benefits and vendor quality increase as the result of our reviews!

Did you know you may be eligible for tax credits?

Many companies are either unaware of state and/or federal tax credits or don't think they meet eligibility requirements.

Would you like to save 20% or more on health insurance?

Health insurance and benefits are a significant cost center for many companies. Most do not know they can reduce their cost significantly while maintaining or improving the quality of coverage. And you don't have to wait for your next open enrollment!

Why give money to your vendors or the government unnecessarily?

We know you've done your best to keep costs down. Our analysts build on your success to give you even greater leverage with our audit tools and proven strategies. We will get you better rates, find bogus charges and produce refunds that put dollars back to your bottom line. All of this is done without changing vendors, reducing headcount or otherwise disrupting your business.

The DCI Assurance

NO RISK – We are paid on performance, and after you realize the refunds, savings and credits we produce for you. No savings, no fee.

MINIMAL DISRUPTION – We work discreetly and confidentially so you quickly see the full magnitude of your savings without wasting valuable time.

SAVINGS – Wise executives who choose DCI increase their cash flow, profit, and market value. Use the money we find you to fuel your company's growth and stay ahead of the competition.
